Summary

Full Stack Developer with 2+ Years of Experience

A highly skilled and motivated Full Stack Developer with over 2 years of experience in building robust, scalable web applications. Proficient in both frontend and backend technologies, with expertise in Django, DRF, Vite, Vue, React, and Next.js. I specialize in creating high-performance solutions and have hands-on experience with AI-powered applications, including developing Telegram bots using Aiogram. Passionate about leveraging modern technologies like TensorFlow to build innovative and efficient systems. Adept at problem-solving, collaborating in agile teams, and delivering quality solutions in fast-paced environments.
